PROFILE

Detail-oriented person with experience in design. Proven ability to create visually appealing designs and understand design principles for optimal UI and UX. Completed an intensive full-stack developer bootcamp, gaining practical knowledge in both frontend and backend development. Seeking to leverage these skills and passion in a full-stack developer role.

EDUCATION

Clap @ JC x Generation

Junior Full Stack Developer Program (Cohort 11)
MAY 2024 – AUG 2024

- Tailored for goal-oriented individuals entering the IT industry.
- Applied frontend development with web technologies and frameworks.
- Built backend database with MongoDB (NoSQL) and Express.
- Designed UI and improved UX across various projects.
- Developed web applications - Chat app, KMB ETA, and To-Do List.
