PROFILE

Detail-oriented person with experience in design. Proven ability to create visually appealing designs and understand different file formats for optimal website performance. Participated in an intensive full-stack Web Developer Bootcamp, gaining practical knowledge in programming, website error troubleshooting, and web product design. Seeking to leverage these skills and passion in a full-stack web development role.

EXPERIENCE

Contract Administrator Assistant

RecruitFirst Limited | DEC 2021 - OCT 2022

- Designed print materials, posters and house programmes
- Created visually appealing designs such as icons, banners, and simple illustrations for websites.
- Fulfilled requirements of designs and be receptive to criticism which improves the work.
- Kept collected photos, design files and project materials well-organized.
- Understood different file formats (JPEG, PNG, TIFF, etc.) and their appropriate use to adjust and edit the photo as needed before uploading to the website.
- Assisted in testing for a website by demonstrating the process of evaluation and modified the website as required

Accounts Clerk

Kintetsu World Express (HK) Limited | FEB 2018 - MAR 2020

- Provided support for daily operations such as data entry, filing, issuing cheque and double entries
- Assisted in administration, includes handling staff expenses, preparing letters and arrangement for courier
- Written and composed emails, drafted letters and memos for meetings effectively
- Communicated effectively with colleagues and managers verbally to support the entire workplace

Gap Year

OCT 2022 - OCT 2023

- Participate in a working holiday program in Japan
- Gained practical experience through part-time jobs
- Immersed in Japanese culture
- Honed communication skills, adaptability, and problem-solving abilities
- Excited to apply these skills to a Full-Stack web developer role, leveraging my passion for web design and development.

EDUCATION

Clap @ JC x Generation Hong Kong (Cohort 11)

Full-Stack Web Developer Bootcamp
MAY 2024 - AUG 2024

- Took part in a bootcamp designed for goal-oriented participants who demand getting into the IT industry
- Practiced on programming, website maintenance, designing web products, improving user experience
- Gained behavioral skills and mindsets for achieving success in the IT industry.

Hong Kong Metropolitan University

Bachelor's Degree in Animation and Visual Effects
2013 - 2017

- Trained with creative design skills, digital visual effects, media production, animation and motion graphics
- Understood design principles, color theory, typography and creating visually appealing interfaces which are important for effective web development.
